Experience

June 2018 - August 2018

Mindweaver, Brooklyn NY

Employer: Moses Mazon

-Learned how to apply and use git and libraries such as jQuery and bootstrap.

Projects

Personal

- Mini project, built a converter from fahrenheit/celsius to other (inspired by Google's converter), using HTML, CSS, Javascript, and jQuery, by using jQuery to select the html and apply javascript to it.
- Made mini games within a game on Snap.berkeley, using for-loops and functions that call one another to access the minigame.

School

- Constructed a program that returned a list of words that was similar in syllables, by reading in a file and would return a list that matched the requirements.

Activities

- Was in KEY Club in high school, a volunteering club that consisted of around 200 members.
- Also Dragon Boat Club, a race where groups of people paddle on a boat to win.
